- Social Studies 9 (0-91) - Chris Kloosterman**
I am going to try another technique for "reminding" students about important projects and exams. I will still be posting on schoolzone.

If students and or parents have a cell phone and download the "Remind 101" app. they can join my class. I will then send reminders directly to your messages about upcoming projects and exams.

Once the APP is downloaded click on the "Join Class"

Then in the message text:

These secure, online applications allow staff and students to communicate and collaborate using Google powered email, calendars, document sharing, and websites. These applications are different from public Google applications (such as Gmail) in that they are managed by the district, do not include any advertising, and have more strict filtering and content controls.

See [this page](#) for detailed information about privacy and Google Apps.
